

## **UNEXPECTED DISASTER CHECKLIST**

This is a shortened checklist I developed to help you prepare for any kind of disaster that forces you to leave your home. Remember, these suggestions are from my own evacuation experience. I also thought about ideas to prepare for an earthquake. You might add more if you live in an area that is prone to floods, hurricanes, and other disasters.

In case of Evacuation:

- Where you are going to stay
- Notify family/close friend
- Personal identification for all family members
- Medications for all
- Family pets
- Know which collectibles you want to take
- Photos of all assets
- Important documents and all financial information
- Passwords to all accounts
- A list of essential clothing and personal care items to pack for at least a few days
